

Getting the Army Cadet Force Font

The font used in the ACF attitude campaign, and now generally associated with the ACF is this font. The font is called Crackhouse believe it or not. To get the font and be able to use it on programs such as Microsoft Word click on the link below to download it.

<http://www.thugz-network.com/2pac-Makaveli-fonts/Makaveli.TTF>

**CRACKHOUSE font
True Type Font File
39Kb**

If asked whether to open or not press allow. The file name is Makaveli which is another name for Crackhouse. When given the choice to Open or Save click Save but DON'T forget which file you have saved it in!

Even though you have now downloaded the font you can't use it yet. To be able to use it open Control Panel and click switch to classic view if using Windows XP or if not already in classic view. Double click on the Fonts icon and once the folder has opened click File, Install New Font. In the folders section choose the destination you chose for the font, and press OK. You should now be able to use the font.
